"This is our first time here and we are very excited about the event. The exhibition brought us a lot of exposure, as the flight route is open, we have more opportunities to meet many international businesses here. We are delighted to be back at the show next year to take advantage of the opportunities it presents."

**Nguyen Van Kiet - Director of Nhat Minh Company and CEO of Nguyen Quynh Anh Company.**

"After 2 years of being affected by the COVID epidemic, we reorganized our booth with the desire to call back customers in many fields such as rubber, footwear, plastic and coating industries. The surprising thing is that customers are always looking forward to new technologies after 2 years of the pandemic and are willing to work with us. The exhibition has only been 2 days, but the number of visitors is very large, and the expert from Labtech (Thailand) of our company must also be surprised by that. We are also preparing from this year to be ready to continue to attend the exhibition with Minh Vi in 2023."
