

Show review: 29.6 – 1.7.2022

Exhibition, workshops and entertainment

Automechanika Ho Chi Minh City 2022 achieved strong local and international support across OE through to the aftermarket. Onsite activities reflected the industry's electrification, digitalisation and industrial transformation. This drew attention to even more opportunities in the passenger vehicle, motorcycle, commercial vehicle and automotive manufacturing and automation segments. In addition, V-Connect also bolstered the show's online services, offering a better participating experience by successfully connecting a wider global audience.

10,112 local and international visitors from 42 markets in Asia, Africa, America, Europe, the Middle East and Oceania
